

Toby Aquamax Wet Edge Extender

Working time extender

Description

Toby Aquamax Wet Edge Extender is an additive that increases the working time of all Toby Aquamax Sealers and Finishes without affecting the viscosity of the coatings. The product improves levelling, especially at higher temperatures and helps to reduce the occurrence of shadow marking caused by the coating drying too fast.

Recommended Uses

Toby Aquamax Wet Edge Extender should be used in conditions where a longer wet edge time for any of the Toby Aquamax products is required. Temperatures significantly above 25°C, especially at low humidity and high airflow rates, are unfavourable drying conditions for water based coatings. Toby Aquamax Wet Edge Extender helps to eliminate problems that could be caused by the coating drying too fast, including bad levelling, blisters and the occurrence of shadow and lap marking.

Properties

Appearance:	Clear liquid
Viscosity:	15 sec. (Ford #4 cup)
Density:	0.96g/ml
Solubility in water:	Soluble
Recommended Dosage:	3 - 10% (30 - 100 ml per litre)
Shelf Life:	12 months
Packaging:	5 Litre Container
Flammability:	Not flammable
UN No:	None allocated
Hazchem:	None allocated
Packaging Group:	None allocated

Application

Add the required amount of Toby Aquamax Wet Edge Extender into the Toby Aquamax product slowly whilst mixing with a flat stick. Continue mixing for one minute and until the additive has been thoroughly incorporated into the Toby Aquamax Finish or Sealer. The recommended addition level is 3 to 10 % (30 to 100 ml per litre).

Note: Toby Aquamax Wet Edge Extender increases the drying time of the coating. Therefore a longer time before overcoating may be required under certain conditions.

Precautions

Health and Safety

For detailed information, refer to the current Material Safety Data Sheet available from your local Orica Woodcare sales office.

Irritating to eyes and skin. May cause nausea and diarrhoea if swallowed. Avoid direct skin contact.

First Aid

If poisoning occurs, contact a Doctor or Poisons Information Centre - ph 13 11 26. If in eyes, hold eyes open, flood with water for at least 15 minutes and see a Doctor. If skin contact occurs, remove contaminated clothing and wash skin thoroughly with soap and water.

Read MSDS, data sheet and label carefully before first use of any product. Orica Woodcare are continually updating materials and methods, so please ensure you have the latest information.

Manufacturer's Comment

This product has been designed as part of a totally integrated application system. Use with any other manufacturer's product, or failing to follow application instructions, could result in detrimental effects on product performance, for which Orica Woodcare holds no responsibility, and Orica Woodcare cannot be held responsible for failure to follow application instructions.
